

Product Profile

Pennchlor-S®

(chlortetracycline, sulfamethazine)

Type A Medicated Article

Product Description

- **Antibacterial combination premix for oral administration in feed to beef cattle**
- **Each pound of premix contains 35 grams of chlortetracycline activity and 35 grams (7.7%) of sulfamethazine**

Formulation

- Free-flowing meal feed medication.
- Ingredients: Chlortetracycline calcium complex, sulfamethazine, calcium sulfate, dried *Streptomyces aureofaciens* fermentation product, mineral oil.

FDA Status

- **CAUTION:** Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.
- Type A Medicated Article for use in the manufacture of beef cattle feeds.
- Category II drug; requires a feedmill license (not required for Type B and Type C medicated feeds).

Indications

- Beef cattle: As an aid in the maintenance of weight gains in the presence of respiratory disease such as shipping fever.
- Feed for 28 days.

Withdrawal Period

- 7 days.

Packaging

- 50-lb, fuchsia color-coded bags.

Key Features

- **Combination of two potent antibacterial agents, providing broad-spectrum activity.**
- **Readily absorbed, providing effective blood and lung tissue concentrations.**
- **Excellent feed medication in starter diets for beef cattle. Perfect for well-managed receiving and weaning programs.**
- **Carriers and ingredients enhance pellet quality when used in easy-to-feed beef crumbles.**
- **Free-flowing formulation promotes consistent mixing.**
- **Wide safety margin.**
- **Color-coded bag for easy identification.**
- **High-quality manufacturing at US Pharmgate facilities according to FDA requirements.**

The labeling contains complete use information, including any cautions and warnings. Always read, understand and follow the labeling and use directions. See the reverse side for use directions and additional information.
