

BLUE BIRD LABELING

bacitracin methylenedisalicylate

Type B medicated feed for beef steers & heifers fed in confinement for slaughter – Liver Abscess 250
(bacitracin Type B medicated feed)

Do Not Feed Undiluted

For reduction in the number of liver condemnations due to abscesses in beef steers & heifers fed in confinement for slaughter.

Active Drug Ingredient

Bacitracin (as feed grade bacitracin methylenedisalicylate)* 51 – 50,000 g/ton (0.025 – 25 g/lb)**

Guaranteed Analysis

Crude Protein (Min)	_____ %
NPN ^a (Max)	_____ %
Crude Fat (Min).....	_____ %
Crude Fiber (Max)	_____ %
Calcium ^a (Min)	_____ %
Calcium ^a (Max).....	_____ %
Phosphorus ^a (Min).....	_____ %
Salt ^a (Min)	_____ %
Salt ^a (Max)	_____ %
Sodium ^b (Min).....	_____ %
Sodium ^b (Max)	_____ %
Potassium ^a (Min)	_____ %
Vitamin A ^a	_____ IU/lb

^a Guarantee required only when nutrient added except when the feed is intended, represented or serves as a principal source of the nutrient.

^b Sodium guarantee required only when total sodium exceeds that furnished by the maximum salt guarantee.

Ingredients

Feed ingredients, as defined by AAFCO, must be listed on the final printed Type C medicated feed label by their common or usual names in descending order or predominance by weight.

Mixing Directions

Mix this Type B medicated feed with non-medicated feed ingredients to manufacture one ton of cattle feed.

The following table provides examples of mixing rates:

Type B bacitracin concentration (g/ton)	Type B per ton of Type C	Non-medicated feed per ton of Type C (lb)	Type C bacitracin concentration (g/ton)
100 (0.05 g/lb)	300	1700	15
1000 (0.5 g/lb)	30	1970	15
100 (0.05 g/lb)	600	1400	30
1000 (0.5 g/lb)	60	1940	30
50,000 (25 g/lb)	1.2	1998.8	30

The resulting Type C medicated feed should be administered continuously for 5 days to provide 250 mg bacitracin per head per day, then discontinued for subsequent 25 days; the pattern should be repeated during the feeding period.

Manufactured By:

Blue Bird Feed Mill

City, State, Zip

NET WEIGHT ON BAG OR BULK

Lot # _____

* Pennitracin MD is the proprietary name of bacitracin methylenedisalicylate formulation (Type A Medicated Article).

**The final printed feed label should list only a single drug concentration.
