Zinc ³ , not less than	
2 Shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guaranteed	arantee

INGREDIENTS

Each Ingredient must be named in accordance with the names and definitions adopted by the Association of American Feed Control Officials.

FEEDING DIRECTIONS

Feed continuously as the sole ration for 14 days.

³ Shall be stated in ppm when less than 10,000 ppm and in percentage when concentration is 10,000 ppm (1%) or greater.

CAUTIONS

Use as only source of chlortetracycline. Use as sole source of tiamulin. Do not feed to animals other than swine. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Swine being treated with tiamulin should not have access to feeds containing polyether ionophores (e.g. lasalocid, monensin, narasin, salinomycin and semduramicin) as adverse reaction may occur. If signs of toxicity occur, discontinue use of medicated feed.

WARNING

Withdraw medicated feed 2 days before slaughter.

Lot Number (if applicable):

Approved by FDA under ANADA # 200-633
